Intestinal Pack:

- ✓ Yeasts
- ✓ Spirulina
- ✓ Pectins
- ✓ Oligofructose

Energy Pack:

- ✓ Dextrose
- ✓ Vitamin C
- ✓ Pectins

Hydration

Digestive system

WHEN & HOW

At times of risk of digestive disorders, during and after these.

DAY 1

Dissolve one dose of 70g of Diafeed in 2L of lukewarm water and distribute 3 times with an interval of 6 hours.

DAY 2

If the calf shows sign of improvement, dilute one dose of Diafeed in 1L of lukewarm water and 1L of milk. Distribute 2 times per day. If there is no improvement, repeat the procedure from DAY 1

DAY 3

Same procedure as DAY 2. If no improvement is noted after 3 days, consult a veterinary surgeon.

One dose of 70g

PACKAGING

- Case 1,47kg = 21 sachets ≈ 3 calves
- Bucket 3,5kg (50 doses) ≈ 7 calves
