

# DEPTA +

Additive to concentrated caustic soda for improved detergency

## ADVANTAGES AND BENEFITS

Circulation

Dip

Spray

- Improves the stability of the caustic soda in the tank: reducing soda losses
- Improves the performance of the alkaline phase: degreasing, defoaming, dispersing properties
- Multi-purpose: for cleaning of circuit and by dipping or spraying
- Suitable for hard water
- Miscible with 30% and 50% caustic soda
- Use at  $>30^{\circ}\text{C}$

Store in cool dry place
