

LUBRANOL DRG

PRODUCT DESCRIPTION

Silicone-free dry lubricant to reduce water consumption whilst facilitating cleaning.

ADVANTAGES AND BENEFITS

- **Optimized line hygiene due to the absence of water**
- **Safety of operators:** dry application makes it possible to reduce the risks of falling
- **Dry application does not produce wastewater**
- **Silicone-free:** facilitated cleaning providing time saving
- **Average reduction in the cost of use of 5 to 7%**
- **Compatible with conveyor systems in plastic and stainless steel with the following packaging:**

Nonfood Compounds
Program Listed: H1
Registration Number:
166778

Packaging

Returnable & one-way glass bottles/jars

Metal cans

PET/polycarbonate bottles

Liquid packaging board (e.g. Tetra Brik)

LUBRANOL DRG

PROTOCOL

Concentration: pure, undiluted.

Timing: to be adapted to each individual area (seconds/hour).

Before performing a practical test, it is essential to carry out a complete clean of the distribution network and conveyors. For optimal results, regularly applying standard OPC procedures is recommended.
