

# BOVISTART

The « boost » to the newborn calves

# BOVISTART

## WHAT ?

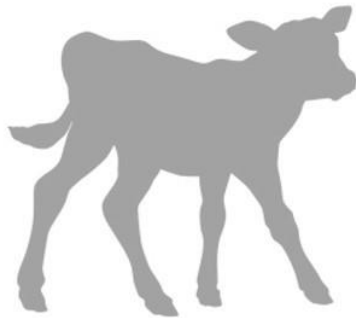

Energy

Digestive system

Immunity

**Colostrum, Dried egg product, Cod Liver Oil, Sugars**

- Rapid energy intake

**Lactic Bacteria, Colostrum and Vitamins**

- Stimulation of the calf's digestive system development

**Antibodies, Vitamins (A,D3,E),**

- Contribution to strengthen immune system

**Essential Oils**

- Aromatic substances

## WHICH RESULTS ?

	Weaning weight	Immunity transfer (IgG)	Digestive disorders	Breathing troubles
<b>Total</b>	<b>+ 2,9%</b>	<b>+ 6,9%</b>	<b>-17,36%</b>	<b>- 90 to 100%</b>
Day	+ 2,12%	+ 0,6%	-22%	-100%
Night	+ 3,7%	+ 13,9%	-11%	-25 to -100%

Figure 1: Effects of BOVISTART on the calves control group (n=25) and the test group (n=25) (Mexico, 2013)

BOVISTART allows:

- An increase of the **weaning weight** of about 2,9%
- An improvement of **the immunity transfer in the blood** of about +6,9%
- Contributes to **decrease the risk of digestive disorders**

## HOW ?

**Intended in case for:**

- ✓ Weak calves at birth
- ✓ Low value Colostrum
- ✓ Absence of drinking or suckling during the first following hours
- ✓ Milk leaks before calving

Paste Gel

**1 syringe in the first hours after birth**

- A second one 24h later, if required

## PACKAGING

Blister of 6 syringes (6x15mL)

Box of 25 syringes (25x15mL)
