

Non-rinse acid disinfectant detergent for surface disinfection (fillers, cappers, EBI etc.) and soak bath disinfection

BEVERAGE INDUSTRY

SOPURCLEAN NR

ADVANTAGES AND BENEFITS

- Based on organic acids and medium chain fatty acids naturally present in beverages (e.g. milk, beer, cider etc.), **N-free**
- Bactericidal, yeasticidal
- Good detergency power against **mineral deposits** (water hardness scale)
- Good wetting properties assuring a complete coverage of the surface during cleaning and disinfection
- Non-rinse disinfection. Easy to rinse in case rinsing is required. Reduced water consumption for rinsing and reduced risk of product residues
- Ensures product integrity and brand image protection by avoiding cross contaminations and the use of food safe components
- NSF registered: This product is acceptable for use as a sanitizer on all surfaces not always requiring a rinse (D2) in and around food processing areas
